

**a****Fixed random maps preserve prompt relations (18/18)**

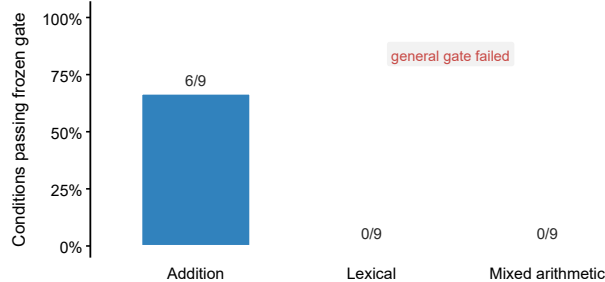

conservative cross-half/quarter CKA excess over strongest null q95

**b****Straighter execution is not native function**

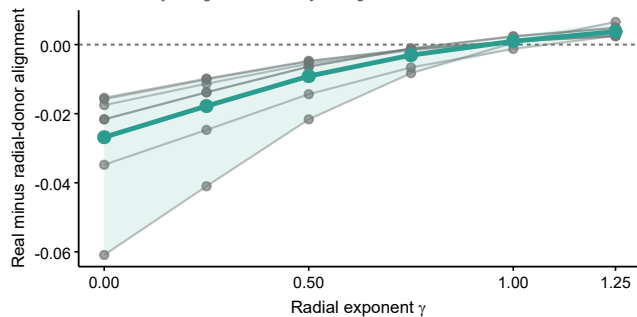

point area encodes Jensen-Shannon divergence

**c****Ordered prefixes show no general incremental gain**

must exceed current state, unordered history and order null

**d****Radial scaling controls the Llama statistic**

direction only: 0/7 gates; norm-only surrogate: 7/7
