

a**Task function is distributed across trained components**

0, step 0; 1, step 143,000; n=53 held-out lexical prompts

Pair
accuracy

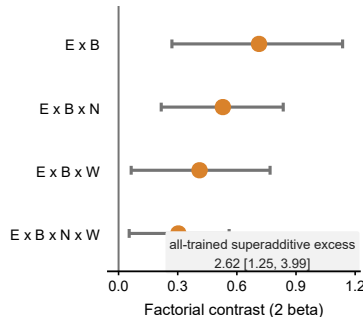

0.4

0.6

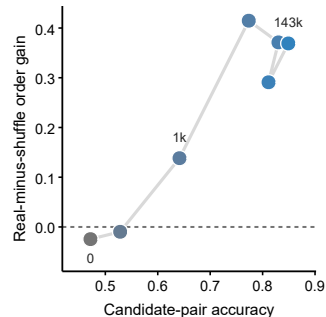

0.8

b**Positive higher-order interactions**

candidate-margin contrasts; 95% paired bootstrap CI

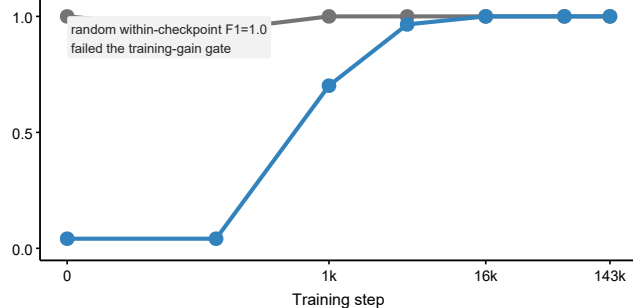

**c****Task-order signal emerges**

training-step labels; Spearman rho=0.75

**d****A fixed task coordinate transfers only after training**

held-out answer-word folds

Category macro F1

Refit within checkpoint

Fixed final coordinate
